Subject: Amended Notice of Intention to Commence Small Mining Operations and Directive to Provide Updated Map of Non-Mining Disturbance, Lynn Aaron Dennison dba Dennison Excavating, Tom Fassio Property Project, S/039/0038, Sanpete County, Utah

Dear Mr. Dennison:

The Division of Oil, Gas and Mining (Division) finds the amended Tom Fassio Property Notice of Intention to Commence Small Mining Operations (NOI) complete for the immediate area proposed for the mine expansion to three acres. The Division has also received reclamation surety totaling \$8,000. You are now permitted to continue small mining activities as outlined in the amended NOI, provided there is no more than one acre of un-graded disturbance at any time, and provided you have approval from all other appropriate agencies.

Due to the proximity of the mining operation to other active non-mining surface disturbances, such as road development, as well as the proximity to reclaimed mining disturbances, the Division needs replacement operation map. The new map should show the locations of actual and planned nearby disturbances which could be mistaken for mining, but which do not result from mining, as defined in Utah Administrative Code R647-1-106. **Accordingly, you are directed to provide this updated disturbance map to the Division by July 15, 2015.**

The approval or acceptance of a complete NOI does not relieve an operator from his responsibility to comply with the applicable statutes, rules, regulations, and ordinances of all local, state and federal agencies with jurisdiction over any aspect of the operator's mining operations. Enclosed please find a copy of the approved amendment to the NOI.

Please keep in mind the following regulatory requirements.

- Stockpiling topsoil material prior to beginning activities will help ensure successful revegetation. Even the first few inches of undeveloped material is worth saving to aid in later revegetation efforts, and future regulatory surety release.
- If you encounter any archaeological or historical items, you are asked to notify this office, and State History of your find.

- Annual reports and permit fees are due by January 31<sup>st</sup>.

The Division's web page at <http://ogm.utah.gov> under the Minerals Program has a link to the rules under which you are expected to operate and to other information to assist you in complying with program requirements. Thank you for your cooperation. In reply, please refer to file number S/039/0038. Please contact Peter Brinton at 801-538-5258 or Paul Baker at 801-538-5261. Best wishes with your mining venture!

Sincerely,

Paul B. Baker  
Minerals Program Manager
